

## AIR POLLUTION CONTROL DISTRICT

POLICY: DESIGNATION OF RESTRICTED AND PROHIBITED BURNING AREAS

EFFECTIVE: January 24, 1986  
Revised December 8, 1999; September 12, 2022

POLICY NUMBER: 8

REFERENCE APCD Rule 701

### GENERAL:

ICAPCD Staff shall not approved field burning or other large burns for areas within any city or townsite, and for safety reasons the following fields will be designated prohibited burn areas:

1. Dahlia 44A
2. Beech 25, 26, 27B, and 27D

In extraordinary circumstances and with substantial demonstration by applicant of how smoke and other fire products will be controlled, the Air Pollution Control Officer may approve burning within the above areas. Burning may be approved, subject to the conditions of ICAPCD Rule 701 for fields, spot burns, and adjacent levees, ditches, and rights-of-way, in the areas served by the canal and gates listed above.

Belen Lopez  
Air Pollution Control Officer
