

**Imperial County Air Pollution Control District –
Request for Proposals (RFP) for
AB 617 Electric Charging Infrastructure Projects**

The Imperial County Air Pollution Control District (ICAPCD) is accepting proposals to obtain electric charging infrastructure to support the emission reductions associated with Electric Vehicle (EV) deployment within the Assembly Bill (AB) 617 Community Corridor of El Centro-Heber-Calexico. Submitted proposals must be for the installation of electric charging infrastructure projects. Eligible applicants are limited to local school districts, public, private, government and transportation agencies within the AB 617 Community Corridor of El Centro-Heber-Calexico.

Proposals

Proposals must be in accordance with the California Air Resources Board's (CARB) Carl Moyer Memorial Air Quality Standards Attainment Program (Moyer Program) and Community Air Protection Incentives 2019 Guidelines (CAP Guidelines). The applicant will be responsible for all permits and location approvals required for the project. Applicant is responsible for completing the Imperial Irrigation District (IID) Application for Service prior to beginning the project (<https://www.iid.com/home/showpublisheddocument/12923/637853529709400000>). All projects must be completed by Electric Vehicle Infrastructure Training Program (EVITP) certified electricians per Assembly Bill 841. The ICAPCD will select proposals that are eligible and cost-effective under the Moyer Program and CAP Guidelines. Applications may be obtained by visiting the Imperial County AB 617 website at <https://www.icab617community.org/>.

All proposals are due to the ICAPCD no later than the **close of business (5:00 pm) on June 15, 2023**, unless prior alternate arrangements are made with the ICAPCD. Please submit a hard copy of your proposal(s) to the following:

ICAPCD
