B.1 - Average Daily Trips per day (ADT) means the average number of vehicles that cross a given point surface during a specific 24-hour period as determined by the most recent Institute of Transportation Engineers trip generation manual, tube counts, or observations. For warehouses the South Coast AQMD, Large Warehouse Distribution Center Trip Rates, report can be used. The rate of 2.59 trips per 1000 square feet for large non-rail warehouses and 1.63 trips per 1000 square feet for large rail warehouses can be used.
